To Whom It May Concern

RE: Fitzgerald Construction

Dear Sirs:

It has been my pleasure to work with Fitzgerald Construction over the past 20 years and most recently with Hans Pistor on our Shoppes of Reunion a 12,000 square foot retail shopping center.

Fitzgerald Construction competitively bid the project against qualified bidders and was prompt and the most prepared of all of the bidders. They completed the job on schedule within budget with minimal change orders and with only justified change orders. I found them to be professional and they are certainly on the top of my bid list for future projects.

Please feel free to contact me if you have any further questions.

Sincerely yours,

Jerry Smalley
